SV College of Pharmacy, Etcherla, organized a Two week certificate program on Pharmacovigilance for 4th B.Pharm and 4th & 5th Pharm.D students by the Resource person Dr. K. Bindu Madhuri. Pharmacovigilance is the science and activities relating to the detection, assessment, understanding and prevention of adverse effects or any other medicine/ vaccine related problem. All medicines and vaccines undergo rigorous testing for safety and efficacy through clinical trials before they are authorized for use. Totally 65 students participated in this training program and after the completion of the program the students able to understand the following objectives and learning outcomes.

Objectives:

1. To Identify and analyse the new signal (ADR) from the reported cures.
2. To analyse the benefit-risk ratio of marketed medications
3. To generate the Evidence based information on Safety of medicine
4. To support regulatory agencies in the decision-making process on use of medications.
5. To Emerge as a national centre for the exchange of Information and data management

Program Outcomes:

1. Concepts of pharamacovigilance.
2. Knowledge about the clinical study data and historical background.
3. To create awareness amongst health care professionals about the importance of ADR reporting in India.
4. To monitor benefit risk profile of medicines.
5. Generate independent evidence based recommendations on the safety of medicines Know about the reagents involved in named reactions.

19-20

SV College of Pharmacy, Etcherla, organized a Two week certificate program on Medication errors for 4th B.Pharm and 3rd, 4th & 5th Pharm.D students by the Resource person N. Rajeswari. A medication error is defined as "any preventable event that may cause or lead to inappropriate medication use or patient harm while the medication is in the control of the healthcare professional, patient, or consumer," according to the National Coordinating Council for Medication Error Reporting and Prevention. Totally 62 students participated in this training program and after the completion of the program the students able to understand the following objectives and learning outcomes.

Objectives:

1. Understand the extent and effect of medication errors on patient health and safety.
2. Describe how and to what degree medication error contribute to medication errors.
3. List examples of medication Errors commonly seen in Practice settings
4. Identify the common medication error- reporting Systems available
5. Apply a Systematic Evaluation of opportunities for medication error to a pharmacy practice model.

Program Outcomes:

1. Knowledge about different types of medication errors.
2. Identify factors that contribute to medication errors.
3. Provide information about possible consequences of medication errors
4. Methods of preventing medication errors.
5. Knowledge about role of quality assurance monitoring off medication errors.

SV College of Pharmacy, Etcherla, organized a two week certificate program on Antimicrobial Agents and their Resistance for 3rd B.Pharm and 3rd Pharm. D students by the resource person. A.V.S.K. Bhavani. Antimicrobial resistance occurs when bacteria, viruses, fungi and parasites change over time and no longer respond to medicines making infections harder to treat and increasing the risk of disease spread, severe illness and death. Totally 70 students participated in this training program and after the completion of the program the students able to understand the following objectives and learning outcomes.

Objectives:

- 1) Review the classification of antimicrobials
- 2) Define pharmacodynamic principles and their relationship to effective antimicrobial therapy
- 3) Discuss patient and drug related factors that influence the selection of the appropriate antimicrobial agent.
- 4) Identify monitoring parameters to evaluate antimicrobial therapy

Program Outcomes:

1. Identify the major types of antibiotics by drug class.
2. Knowledge about the use of antibiotics and general drug terminology in written and oral communication.
3. Know about the therapeutic effects, side effects.
4. Well acquainted about the route of administration of major drugs of antibiotics.
5. To understand the which auxiliary labels to use when dispensing major types of antibiotics.

19-20

SV College of Pharmacy, Etcherla, organized a Two week certificate program on Cancer Chemotherapy for 3rd B. Pharm and 3rd Pharm. D students by the Resource person D.Prasanth. Chemotherapy is a drug treatment that uses powerful chemicals to kill fast growing cells in your body and often used for treating cancer, since cancer cells grow and multiply much more quickly than most cells in the body. Totally 67 students participated in this training program and after the completion of the program the students able to understand the following objectives and learning outcomes.

Objectives:

1. Identify classifications of chemotherapy.
2. Discuss side effects and toxicities of chemotherapy
3. Gain an awareness of the historical roots of using Chemotherapy to treat cancer.
4. Identify the special situations and actions that must be considered when preparing chemotherapy.
5. The student will describe how chemotherapy works on normal and cancerous cells.

Program Outcomes:

1. Knowledge about destroying of cancer cells.
2. Understand the principles involved in chemotherapy.
3. Provide information about mechanism of action and pharmacological actions of chemotherapy.
4. Impacts of chemotherapy dose intensity on cancer patient.
5. Knowledge about manufacturing of dosage forms

SV College of Pharmacy, Etcherla, organized a Two week certificate program on Design of dosageregimens for 3rd & 4th B. Pharm and 4th Pharm.D students by the Resource person Dr.Ch.Tarak rama rao. Dosage regimen design is the selection of drug dosage, route, and frequency of administration in an informed manner to achieve therapeutic objectives and specific drugs have inherently different risks associated with their use and a dosage regimen should be selected which will maximize safety. Totally 65 students participated in this training program and after the completion of the program the students able to understand the following objectives and learning outcomes.

Objectives:

1. Importance of nomograms in designing dosage regimen.
2. Dose and dosing interval concept
3. Describe various methods used to design a dosage regimen.
4. Evaluate dosage regimen design based pharmacokinetic parameters.
5. Describe the use of hartford nomogram for dosing aminoglycosides.

Program Outcomes:

1. Clinical importance of selecting antimicrobial dosing regimens
2. Understand the concept of Dose and dosing interval concept
3. Know about conversion from intravenous infusion to oral dosing
4. Understand the difference between dosage form and dosage regimen
5. Pharmacokinetic consideration outcomes

About College

Sri Venkateswara College of pharmacy was established in 2004 by Vikas Educational Society, Etcherla, Srikakulam district. The objective of the college is to impart quality education to the students of rural areas. The college have the student community in their academic endeavour and extra-curricular activities. The Placement cell is active, opening the frontier of job opportunities. This college is committed to pursue excellence in all its disciplines and providing training to develop professional responsibility, Social sensitivity and cultural awareness. It also directs students through the path of truth and integrity. Our college is surrounded by the beauty of nature. The college offers . B.Pharmacy, M.Pharmacy,(Pharmaceutical Analysis & Quality Assurance, Pharmaceutical Technology, Pharmacology) and Doctor of Pharmacy courses.

Topics

- Introduction to pharmacology
- Classification of various drugs
- Source of drugs
- Cardiac effects of drugs
- Contraindication of drugs
- Pharmacokinetics
