ABOUT COLLEGE

Sri Venkateswara College of pharmacy was established in 2004 by Vikas Educational Society, Etcherla, Srikakulam district. The objective of the college is to impart quality education to the students of rural areas. The college have the student community in their academic endeavour and extra-curricular activities. The Placement cell is active, opening the frontier of job opportunities. This college is committed to pursue excellence in all its disciplines and providing training to develop professional responsibility, Social sensitivity and cultural awareness. It also directs students through the path of truth and integrity. Our college is surrounded by the beauty of nature. The college offers B.Pharmacy, M.Pharmacy (Pharmaceutical Analysis & Quality Assurance, Pharmaceutical Technology, Pharmacology) and Doctor of Pharmacy courses.

COURSES OFFERED :

D.Pharm- 2years
B.Pharm-4 years
Pharm.D-6years
M.Pharm-2years

OBJECTIVES OF THE PROGRAMME

The main objective of this seminar is to know the importance of polymeric micelles for drug delivery. polymeric micelles are used to solubilize the hydrophobic drugs.so due to this, increasing water solubility, better efficacy, and safety profile parameter were enhanced using polymeric micelles. Drug delivered through polymeric micelles was less toxic compared to conventional drug delivery systems of anti cancer drugs

TOPICS COVERED

Drug delivery systems
Preparation methods
Applications
Inhalations
Advancements

PROGRAMME REPORT

PROGRAMME NAME	A One Day Seminar On Research And Development Of Inhaled Microparticles As Drug Delivery Systems.
RESOURCE PERSON	Mr. V. Anil Kumar, Assistant Professor, Department Of Pharmaceutical Technology, GIET School Of Pharmacy, Rajahmundry. Contact No:8688938234
DATE OF ACTIVITY	16.09.2021
ORGANISED BY	Sri Venkateswara College Of Pharmacy, Etcherla, Srikakulam.
VENUE	Seminar Hall, Sri Venkateswara College Of Pharmacy.

OBJECTIVE OF THE PROGRAMME:

The main objective of this programme is to make aware of role and development of microparticles as inhaled drug delivery systems. It is a developing technology in which medication is inhaled through lungs and enters the bloodstream through alveolar epithelium. There are two types of inhaled drug delivery systems one is intranasal and oral inhale delivery.

TOPICS COVERED:

- Introduction
- Inhaled drug delivery
- Types of aerosol generators
- Delivery methods
- Different types of devices

SRI VENKATESWARA COLLEGE OF PHARMACY

(Affiliated to Andhra University, Visakhapatnam)

Approved by P.C.I., New Delhi & A.I.C.T.E., New Delhi

Email:svcp.etcherla@gmail.com, Website:www.svcpharmacy.in

OUTCOME OF THE PROGRAMME:

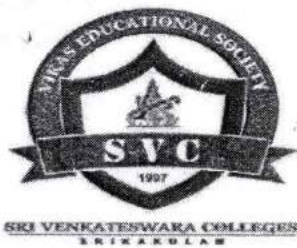

The students learned about advancements in inhaled drug delivery, methods used in drug delivery, future benefits of this route of drug delivery.

They gained knowledge on

- Inhaled drug delivery
- Types of aerosol generators
- Delivery methods

This seminar aims to shed light on various topics in chemistry, highlighting both the advancements in patient care and the instrumental role of research in driving innovations.

TOPICS COVERED

Pharmaceutical chemistry
Analytical chemistry in healthcare
Chemical biology
Chemistry and research breakthroughs

PROGRAMME REPORT

PROGRAMME NAME	A One Day Seminar On Exploring Advances In Chemistry: From Patient Care To Research Breakthroughs.
RESOURCE PERSON	Mrs. K. Sravani, Assistant Professor, Department Of Pharmaceutical Chemistry, CRR College Of Pharmaceutical Sciences, Eluru. Contact No:9966847776
DATE OF ACTIVITY	17.11.2021.
ORGANISED BY	Sri Venkateswara College Of Pharmacy, Etcherla, Srikakulam.
VENUE	Seminar Hall, Sri Venkateswara College Of Pharmacy.

OBJECTIVE OF THE PROGRAMME:

This seminar aims to shed light on various topics in chemistry, highlighting both the advancements in patient care and the instrumental role of research in driving innovations.

TOPICS COVERED:

- Pharmaceutical chemistry
- Analytical chemistry in healthcare
- Chemical biology
- Chemistry and research breakthroughs

ABOUT COLLEGE

Sri Venkateswara College of pharmacy was established in 2004 by Vikas Educational Society, Etcherla, Srikakulam district. The objective of the college is to impart quality education to the students of rural areas. The college have the student community in their academic endeavour and extra-curricular activities. The Placement cell is active, opening the frontier of job opportunities. This college is committed to pursue excellence in all its disciplines and providing training to develop professional responsibility, Social sensitivity and cultural awareness. It also directs students through the path of truth and integrity. Our college is surrounded by the beauty of nature. The college offers B.Pharmacy, M.Pharmacy (Pharmaceutical Analysis & Quality Assurance, Pharmaceutical Technology, Pharmacology) and Doctor of Pharmacy courses.

COURSES OFFERED :

D.Pharm- 2years
B.Pharm-4 years
Pharm.D-6years
M.Pharm-2years

OBJECTIVES OF THE PROGRAMME

Nanomaterials have net worthy application in nanobiotechnology, particularly in diagnosis, drug delivery systems, prostheses and implants. Nanoscale materials integrate well into biomedical devices because most biological systems are also nanosized. Popular nanoparticles in biomedical imaging include fluorescent particles for optical imaging, such as quantum dots, gold nanoparticles and magnetic particles for MRI.

TOPICS COVERED

Nanoparticles
Different types of nanoparticles
Applications of nanoparticles in R&D
Biomedical applications
Mechanism of nanoparticles in therapy

ABOUT COLLEGE

Sri Venkateswara College of pharmacy was established in 2004 by Vikas Educational Society, Etcherla, Srikakulam district. The objective of the college is to impart quality education to the students of rural areas. The college have the student community in their academic endeavour and extra-curricular activities. The Placement cell is active, opening the frontier of job opportunities. This college is committed to pursue excellence in all its disciplines and providing training to develop professional responsibility, Social sensitivity and cultural awareness. It also directs students through the path of truth and integrity. Our college is surrounded by the beauty of nature. The college offers B.Pharmacy, M.Pharmacy (Pharmaceutical Analysis & Quality Assurance, Pharmaceutical Technology, Pharmacology) and Doctor of Pharmacy courses.

COURSES OFFERED :

D.Pharm- 2years
B.Pharm-4 years
Pharm.D-6years
M.Pharm-2years

OBJECTIVES OF THE PROGRAMME

The main objective of this seminar is to know the importance of polymeric micelles for drug delivery. polymeric micelles are used to solubilize the hydrophobic drugs.so due to this, increasing water solubility, better efficacy, and safety profile parameter were enhanced using polymeric micelles. Drug delivered through polymeric micelles was less toxic compared to conventional drug delivery systems of anti cancer drugs

TOPICS COVERED

Importance of validation
Patient expired drug
Method developments
Significance
Error minimization

PROGRAMME REPORT

PROGRAMME NAME	A One Day Seminar On Method Development, Validation And Analysis Of Patent Expired Drugs.
RESOURCE PERSON	D. Venkatesh, Jr. Research Associate, Actimus Bio Sciences Pvt. Ltd, Visakhapatnam Contact No:7658955065
DATE OF ACTIVITY	16.02.2022
ORGANISED BY	Sri Venkateswara College Of Pharmacy, Etcherla, Srikakulam.
VENUE	Seminar Hall, Sri Venkateswara College Of Pharmacy.

OBJECTIVE OF THE PROGRAMME:

The purpose of analytical method development is to establish the identity, purity, physical characteristics, and potency of drugs, including the drug bioavailability and stability. Generic medicines are more affordable than non generic medicines, so it is important to validate and analyze the patent expired drugs.

TOPICS COVERED:

- Introduction
- Discovery prototype design
- Phases
- Formulation development
- Generic drug approval process
- Regulatory aspects for the development of generic drug

ABOUT COLLEGE

Sri Venkateswara College of pharmacy was established in 2004 by Vikas Educational Society, Etcherla, Srikakulam district. The objective of the college is to impart quality education to the students of rural areas. The college have the student community in their academic endeavour and extra-curricular activities. The Placement cell is active, opening the frontier of job opportunities. This college is committed to pursue excellence in all its disciplines and providing training to develop professional responsibility, Social sensitivity and cultural awareness. It also directs students through the path of truth and integrity. Our college is surrounded by the beauty of nature. The college offers B.Pharmacy, M.Pharmacy (Pharmaceutical Analysis & Quality Assurance, Pharmaceutical Technology, Pharmacology) and Doctor of Pharmacy courses.

COURSES OFFERED :

D.Pharm- 2years
B.Pharm-4 years
Pharm.D-6years
M.Pharm-2years

OBJECTIVES OF THE PROGRAMME

The goal of the treatment is to achieve a cure for your cancer, allowing you to live a normal life span. Chemotherapy works against cancer by killing fast-growing cancer cells. It also aims at lower the risk of getting cancer and taking medicines or vaccines that can prevent cancer from developing.

TOPICS COVERED

Existing anticancer and newer molecules
2Target based anticancer therapy
Newer anticancer drug delivery systems
Cancer vaccines
Cytotoxic drugs
Conclusion

For any queries

COURSES OFFERED :

D.Pharm- 2years
B.Pharm-4 years
Pharm.D-6years
M.Pharm-2years

OBJECTIVES OF THE PROGRAMME

The target of such study is to evaluate the therapeutic compatibility of tested drugs. This is assessed measuring the maximum concentration and time of maximum concentration to evaluate the rate of absorption and are under the curve for the extent of absorption. The importance of Bioequivalence studies is increasing also due to the large growth of the production and consumption of generic products.

TOPICS COVERED

Concept of Equivalents
Bioequivalence
Therapeutic equivalence
Factors Affecting equivalence

ABOUT COLLEGE

Sri Venkateswara College of pharmacy was established in 2004 by Vikas Educational Society, Etcherla, Srikakulam district. The objective of the college is to impart quality education to the students of rural areas. The college have the student community in their academic endeavour and extra-curricular activities. The Placement cell is active, opening the frontier of job opportunities. This college is committed to pursue excellence in all its disciplines and providing training to develop professional responsibility, Social sensitivity and cultural awareness. It also directs students through the path of truth and integrity. Our college is surrounded by the beauty of nature. The college offers B.Pharmacy, M.Pharmacy (Pharmaceutical Analysis & Quality Assurance, Pharmaceutical Technology, Pharmacology) and Doctor of Pharmacy courses.

COURSES OFFERED :

D.Pharm- 2years
B.Pharm-4 years
Pharm.D-6years
M.Pharm-2years

OBJECTIVES OF THE PROGRAMME

The objective of BA/BE studies in clinical trials I to evaluate the rate and extent of absorption of a drug from a test formulation. Bioequivalence and bioavailability studies are essential in early and late clinical development of drug candidates. They are required to ensure therapeutic equivalence between a pharmaceutically equivalent test drug and a generic drug.

TOPICS COVERED

Protocol
Purpose of protocol
Study design
Treatment of subjects
Generic drug
Price difference between reference and generic drugs
Requirement of BA/BE studies

OUTCOME OF THE PROGRAMME:

The students learned about protocol preparation for Bio-Availability/Bio-Equivalence studies In Pharmaceutical Research

They gained knowledge on:

- Importance of protocol preparation.
- Developing a protocol
- Data handling and analysis
- Literature review
- Calculation and evaluation
- Study design
