## ABOUT COLLEGE

Sri Venkateswara College of pharmacy was established in 2004 by Vikas Educational Society, Etcherla, Srikakulam district. The objective of the college is to impart quality education to the students of rural areas. The college have the student community in their academic endeavour and extra-curricular activities. The Placement cell is active, opening the frontier of job opportunities. This college is committed to pursue excellence in all its disciplines and providing training to develop professional responsibility, Social sensitivity and cultural awareness. It also directs students through the path of truth and integrity. Our college is surrounded by the beauty of nature. The college offers B.Pharmacy, M.Pharmacy (Pharmaceutical Analysis & Quality Assurance, Pharmaceutical Technology, Pharmacology) and Doctor of Pharmacy courses.

## COURSES OFFERED :

D.Pharm- 2years  
B.Pharm-4 years  
Pharm.D-6years  
M.Pharm-2years

## OBJECTIVES OF THE PROGRAMME

The main objective of this seminar is to create awareness on CADD which plays a major role in screening out large compound libraries into smaller clusters of predicted active compounds. It is also used to simulate interactions between receptors and drugs in order to determine binding affinities .

## TOPICS COVERED

Role of CADD in research and drug discovery  
Different computational methods used in research  
Impact of CADD  
Types of CADD  
Methodologies

## PROGRAMME REPORT

PROGRAMME NAME	A One Day Seminar On Impact Of CADD On Pharmaceutical Research.
RESOURCE PERSON	Dr. P. Srinivasarao, Principal, Yalamarthy Pharmacy College, Tarluwada, Anandapuram, Visakhapatnam Contact No:9949176444
DATE OF ACTIVITY	23.10.2020
ORGANISED BY	Sri Venkateswara College Of Pharmacy, Etcherla, Srikakulam.
VENUE	Seminar Hall, Sri Venkateswara College Of Pharmacy.

### OBJECTIVE OF THE PROGRAMME:

The main objective of this seminar is to create awareness on CADD which plays a major role in screening out large compound libraries into smaller clusters of predicted active compounds. It is also used to simulate interactions between receptors and drugs in order to determine binding affinities .

### TOPICS COVERED:

- Introduction
- Role of CADD in research and drug discovery
- Different computational methods used in research
- Impact of CADD
- Types of CADD
- Methodologies

Approved by P.C.I., New Delhi & A.I.C.T.E., New Delhi

Email:svcp.etcherla@gmail.com, Website:www.svcpharmacy.in

## OUTCOME OF THE PROGRAMME:

Students were made aware of applications of CADD.

They gained knowledge on

- CADD impact and role in research,
- Theoretical basis of CADD
- Drug discovery techniques using CADD etc.

The objective of the college is to impart quality education to the students of rural areas. The college have the student community in their academic endeavour and extra-curricular activities. The Placement cell is active, opening the frontier of job opportunities. This college is committed to pursue excellence in all its disciplines and providing training to develop professional responsibility, Social sensitivity and cultural awareness. It also directs students through the path of truth and integrity. Our college is surrounded by the beauty of nature. The college offers B.Pharmacy, M.Pharmacy (Pharmaceutical Analysis & Quality Assurance, Pharmaceutical Technology, Pharmacology) and Doctor of Pharmacy courses.

## COURSES OFFERED :

D.Pharm- 2years  
B.Pharm-4 years  
Pharm.D-6years  
M.Pharm-2years

## OBJECTIVES OF THE PROGRAMME

The main objective of this seminar is to know the importance of polymeric micelles for drug delivery. polymeric micelles are used to solubilize the hydrophobic drugs. so due to this, increasing water solubility, better efficacy, and safety profile parameter were enhanced using polymeric micelles. Drug delivered through polymeric micelles was less toxic compared to naïve paclitaxel.

## TOPICS COVERED

Drug delivery system  
Polymeric micelles  
Preparation techniques  
Application advancement

### PROGRAMME REPORT

PROGRAMME NAME	A One Day Seminar On Research And Advancements In Polymeric Micelles In Drug Delivery.
RESOURCE PERSON	Mr. V. Anil Kumar, Asst Professor, Dept. Of Pharmaceutical Technology, GIET School Of Pharmacy, Rajahmundry. Contact No:8688938234
DATE OF ACTIVITY	11.11.2020
ORGANISED BY	Sri Venkateswara College Of Pharmacy, Etcherla, Srikakulam.
VENUE	Seminar Hall, Sri Venkateswara College Of Pharmacy.

#### OBJECTIVE OF THE PROGRAMME:

The main objective of this seminar is to know the importance of polymeric micelles for drug delivery. polymeric micelles are used to solubilize the hydrophobic drugs.so due to this, increasing water solubility, better efficacy, and safety profile parameter were enhanced using polymeric micelles. Drug delivered through polymeric micelles was less toxic compared to conventional drug delivery systems of anti cancer drugs

#### TOPICS COVERED:

- Introduction
- Polymeric micelles
- Preparation methods
- Applications

# SRI VENKATESWARA COLLEGE OF PHARMACY

(Affiliated to Andhra University, Visakhapatnam)

Approved by P.C.I., New Delhi & A.I.C.T.E., New Delhi

Email:svcp.etcherla@gmail.com, Website:www.svcpharmacy.in

## OUTCOME OF THE PROGRAMME:

Students learned about basics concepts, methods of preparation, difference between micelles and polymeric micelles and applications in pharmaceutical research.

They gained knowledge on

- Polymeric Drug Delivery Systems
- Advantages
- Advancements.

SV COLLEGE OF PHARMACY.*

## ABOUT COLLEGE

Sri Venkateswara College of pharmacy was established in 2004 by Vikas Educational Society, Etcherla, Srihahulam district. The objective of the college is to impart quality education to the students of rural areas. The college have the student community in their academic endeavour and extra-curricular activities. The Placement cell is active, opening the frontier of job opportunities. This college is committed to pursue excellence in all its disciplines and providing training to develop professional responsibility, Social sensitivity and cultural awareness. It also directs students through the path of truth and integrity. Our college is surrounded by the beauty of nature. The college offers B.Pharmacy, M.Pharmacy (Pharmaceutical Analysis & Quality Assurance, Pharmaceutical Technology, Pharmacology) and Doctor of Pharmacy courses.

## COURSES OFFERED :

D.Pharm- 2years  
B.Pharm-4 years  
Pharm.D-6years  
M.Pharm-2years

## OBJECTIVES OF THE PROGRAMME

This session aims the advance oncology research and ultimately improve cancer treatment. Outcome for patients, emphasizing the translation of scientific discoveries into effective clinical interventions.

## TOPICS COVERED

Immunotherapy  
Targeted Therapy  
Precision Medicine  
Epigeneticist

## ABOUT COLLEGE

Sri Venkateswara College of pharmacy was established in 2004 by Vikas Educational Society, Etcherla, Srikakulam district. The objective of the college is to impart quality education to the students of rural areas. The college have the student community in their academic endeavour and extra-curricular activities. The Placement cell is active, opening the frontier of job opportunities. This college is committed to pursue excellence in all its disciplines and providing training to develop professional responsibility, Social sensitivity and cultural awareness. It also directs students through the path of truth and integrity. Our college is surrounded by the beauty of nature. The college offers B.Pharmacy, M.Pharmacy (Pharmaceutical Analysis & Quality Assurance, Pharmaceutical Technology, Pharmacology) and Doctor of Pharmacy courses.

## COURSES OFFERED :

D.Pharm- 2years  
B.Pharm-4 years  
Pharm.D-6years  
M.Pharm-2years

## OBJECTIVES OF THE PROGRAMME

The main objective of this seminar is to know the benefits of multiple dose regimens. After single-dose drug administration, the plasma drug level rise above and then fall below the minimum effective concentration, resulting in a decline in therapeutic effect. To maintain prolonged therapeutic activity, many drugs are given in a multiple-dosage regimen.

## TOPICS COVERED

Criteria for optimum dosage regimen  
Factors affecting the design of dosage regimen  
Superposition principle  
Basic considerations  
Purpose of multiple dose regimen

## ABOUT COLLEGE

Sri Venkateswara College of pharmacy was established in 2004 by Vikas Educational Society, Etcherla, Srikakulam district. The objective of the college is to impart quality education to the students of rural areas. The college have the student community in their academic endeavour and extra-curricular activities. The Placement cell is active, opening the frontier of job opportunities. This college is committed to pursue excellence in all its disciplines and providing training to develop professional responsibility, Social sensitivity and cultural awareness. It also directs students through the path of truth and integrity. Our college is surrounded by the beauty of nature. The college offers B.Pharmacy, M.Pharmacy (Pharmaceutical Analysis & Quality Assurance, Pharmaceutical Technology, Pharmacology) and Doctor of Pharmacy courses.

## COURSES OFFERED :

D.Pharm- 2years  
B.Pharm-4 years  
Pharm.D-6years  
M.Pharm-2years

## OBJECTIVES OF THE PROGRAMME

The main objective of signal transduction is to amplify the incoming signal by signalling cascade using a network of enzymes that act on one another in specific ways to ultimately generate a precise and appropriate physiological response by the cell. Signal transduction is important for cells to grow and work normally. Cells that have abnormal signalling molecules may become cancer cells.

## TOPICS COVERED

Signal transduction  
Various extracellular receptors  
Mechanism  
Intracellular receptors  
Pharmaceutical research on signal transduction  
Conclusion
