## REPORT

Name of the programme: A Programme on Pass Software.

Date of the programme : 20/06/2022 – 21/06/2022.

The programme covered the basic features of PASS software including its data analysis tools, visualization features and statistical functions. Students were shown how to import and clean data, create graphs and charts and perform statistical analyses using the software.

The programmer also gave a demonstration of how to use the software for a real-world research project. He provided refreshments and networking opportunities, allowing students to connect and exchange ideas.

The programme was well received by the students which is informative and useful for their research projects.

### REPORT

Name of the programme : A Programme on Maestro Software.

Date of the programme : 30/11/2021 – 01/12/2021.

The programme started an introduction to the software and its interface. Students were shown how to navigate the software and how to use its various features including the computational modeling and machine learning.

The programmer gave a demonstration of how to create a 3D modeling structures using the software. The students were allowed to ask questions to the programmer to clarify their doubts

The speaker explained about the software usages in the molecular modeling, drug discovery, chemical visualization, protein-ligand interactions, quantum mechanics calculations and cheminformatics etc.

The students were then allowed to practice various operations with the software and the doubts were clarified by the presenter.

The programme was successful and the students found it informative and useful.

### REPORT

Name of the programme: A Programme on Mars Software.

Date of the programme : 10/12/2020 – 11/12/2020.

The purpose of the event was to introduce students to MARS software and its features. The programme began with an introduction to the software and its interface. The presenter gave a demonstration of the various functions of the software including its assembly language editor and debugger.

The programme included a question-and-answer session where students could ask the presenter questions about the software. She also provided resources for further learning including MARS software documentation and online tutorials.

The programme was success and many of the students expressed interest in using MARS software for their future programming projects.

## REPORT

Name of the programme: A Programme on Wincart Software.

Date of the programme : 19/12/2019 – 20/12/2019.

The aim of the programme was to provide students with an introduction to the Wincart software, a popular e-commerce platform and to help them develop essential skills in setting up and managing an online store.

The students were given the overview of this and its applications. The instructor also explained the various features of the software including store design, product management.

The students were then given hands-on training on how to setup and manage an online store using this software. She also demonstrated how to create product listings, setup payment gateways and manage shipping fulfillment.

## REPORT

Name of the programme: A Programme on Schrodinger Software.

Date of the programme : 12/11/2018 – 13/11/2018.

The aim of the programme was to provide students with an introduction to the Schrodinger software, a computational chemistry software suite, and to help them develop essential computational and scientific skills.

The students were given an overview of the Schrodinger software and its applications. The instructor demonstrated various features of the software including molecular visualization, molecular dynamics simulations and quantum mechanics calculations.

The students gained the knowledge about the software and their uses in the daily life and job opportunities after the studies.

## CIRCULAR

All the M. Pharm students of Sri Venkateswara College Of Pharmacy are hereby informed that SVCP is going to conduct a 2 days programme on “Gastro plus Software” from 07/11/2017 – 08/11/2017.

Mrs.B.Padmasri, working as assistant professor in this institution, will give a lecturs regarding gastro plus software. So, all the students must attend the programme without fail.

Timing : 10:00 AM

Date : 07/11/2017 – 08/11/2017 .

Venue : SVCP CLASS ROOM

## REPORT

Name of the programme: A Programme on Gastroplus Software.

Date of the programme : 07/11/2017 – 08/11/2017.

The programme aimed to provide students with an in-depth understanding of Gastroplus software & its applications.

It covered topics like oral absorption modeling, pharmacokinetics, drug-drug interactions and formulation optimization.

Some practical demonstrations are done by the person and the students also tried the software.

The software's interface various modules were explored, allowing the students to gain proficiency in stimulating and predicting the behavior of drug compounds within the gastro-intestinal tracts.

The software provided the students with comprehensive insights into the capabilities of Gastroplus software for pharmaceutical modeling and stimulation.
