About Us

Sri Venkateswara College of pharmacy was established in 2004 by Vikas Educational Society, Etcherla, Srikakulam district. The objective of the college is to impart quality education to the students of rural areas. The college have the student community in their academic endeavour and extra-curricular activities. The Placement cell is active, opening the frontier of job opportunities. This college is committed to pursue excellence in all its disciplines and providing training to develop professional responsibility, Social sensitivity and cultural awareness. It also directs students through the path of truth and integrity. Our college is surrounded by the beauty of nature. The college offers . B.Pharmacy, M.Pharmacy, (Pharmaceutical Analysis & Quality Assurance, Pharmaceutical Technology, Pharmacology) and Doctor of Pharmacy courses.

Objectives of Program

- rapid overview of the major components occurring in plants and other sources of natural products.
- Natural products have been the single most productive source of leads the development of drugs.
- The hyphenated technique is developed from the coupling of separation technique and on line spectroscopic detection technology.

Topics

- 1.This topic addresses the future prospectives in natural products analysis including the most significant trends in the extraction and instrumental techniques for the analysis.
- 2.with regard to the extraction techniques, by using the green extraction concept which focus on using less solvents, consuming less energy and obtaining higher yields.
- 3.concerning the hyphenated instrumental techniques with different separation techniques and combined with screening strategies.

PROGRAMME REPORT

Name Of the Programme: A one Week Faculty Development Programme on recent advances in coupling technology in analysis of natural products.

Date: 14-12-20 to 19-12-20

Details Of the Resource Person:

- **Name:** Dr.G. Vijaya Kumar
- **Designation:** Professor
- **Organization:** KVSr Siddhartha college of pharmaceutical sciences
- **Email Id:** ghanta.vijay@gmail.com
- **Contact number:** 9989921747

Objective: Sri Venkateswara College of Pharmacy had successfully Organized a One-week Faculty Development Program On recent advances in coupling technology in analysis of natural products. The main Objective of the Program is to provide the online technique which is used for the rapid overview of the major components occurring in plants and other sources of natural products.

Topics Covered:

- 1.This topic addresses the future prospectives in natural products analysis including the most significant trends in the extraction and instrumental techniques for the analysis.
- 2.with regard to the extraction techniques, by using the green extraction concept which focus on using less solvents, consuming less energy and obtaining higher yields.
- 3.concerning the hyphenated instrumental techniques with different separation techniques and combined with screening strategies.

Outcome of the programme:

Open feedback was collected from the faculty member and they convey that the program was extremely helpful for covering the topics related to information which is useful for the detection of various groups of natural products in nanogram and even picogram range and can contribute the solutions for the problems of biochemical, physiological and in chemical research.

About Program

It is a one week offline faculty development programme. The programme aims in enhancing faculty members about advances pharmacology and toxicology which is useful to faculty members to seek thorough knowledge in pharmacoepidimology and toxicological studies to pursue opportunities in clinical research.

Registration fee: 600

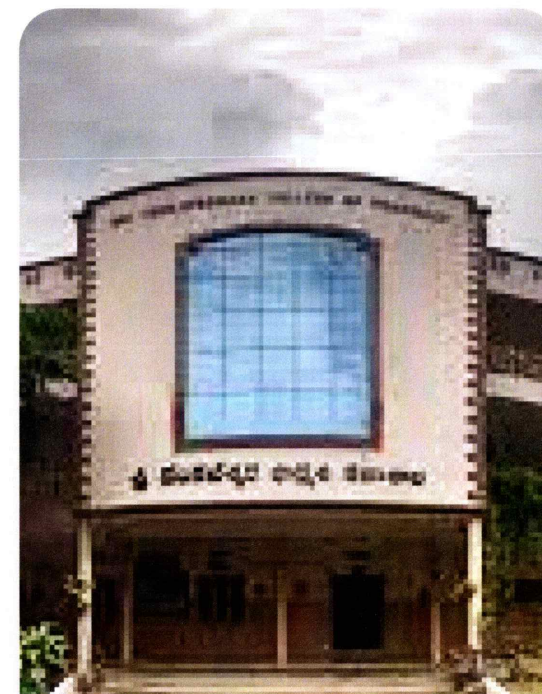

OBJECTIVES

- To discuss broadly covering Pharmacology, Pharmaceutics and Toxicology.
- This program mainly focuses on Drug Metabolism, Pharmacogenetics & Analytical Toxicology.
- Concepts in basic pharmaceutical science.
- Chemical Processing of Pharmaceuticals, including crystallization, Lyophilization.
- Chemical Stability of drugs, Metabolic disposition of bioactive agents, Dosage form design, Protein-peptide chemistry.

Objective: Sri Venkateshwara college of pharmacy had successfully organized A one week Faculty Development programme on Recent trends in Pharmacological sciences. The main objective of the programme is to discuss broadly covering Pharmacology, Pharmaceutics and Toxicology.

Topics Covered:

- **Drug discovery and Development** (drug design, target identification and validation, lead generation, preclinical and clinical drug development, drug delivery, pharmaceutical formulation)
- **Basic and Clinical Pharmacology** (drug mechanisms, receptors, enzymes, ion channels, transporters, different classes of ligands, biomarkers, pharmacokinetics, pharmacodynamics, drug metabolism and pharmacogenetics)
- **Therapeutics** (gene- based, cell- based, protein-based therapy, other drug modalities, routes of administration, drug classes, drug nomenclature)

Outcome of the programme:

Open feedback was collected from the faculty members and they convey that that the programme was extremely helpful for covering the topics related to information which is useful to seek through knowledge in Pharmacy, Pharmacology and Toxicology studies.
