About College

Sri Venkateswara College of pharmacy was established in 2004 by Vikas Educational Society, Echerla, Srikakulam district. The objective of the college is to impart quality education to the students of rural areas. The college have the student community in their academic endeavour and extra-curricular activities. The Placement cell is active, opening the frontier of job opportunities. This college is committed to pursue excellence in all its disciplines and providing training to develop professional responsibility, Social sensitivity and cultural awareness. It also directs students through the path of truth and integrity. Our college is surrounded by the beauty of nature. The college offers . B.Pharmacy, M.Pharmacy,(Pharmaceutical Analysis & Quality Assurance, Pharmaceutical Technology, Pharmacology) and Doctor of Pharmacy courses.

About program

The main aim of the programme is to provide information about method development and validation in drug development in analytical chemistry by providing faculty members with enough knowledge which helps them to participate in various conferences/work shops.

Objectives

- Helps in understanding the critical process parameters and to reduce their effects on precision and accuracy.
- The process of drug development requires a suitable technique which helps the scientist to analyze the drug molecule. is an accurate, precise, and easiest way.
- For the quantitative and qualitative estimation of drugs in analytical chemistry it is very important to identify the best method for method development.

Last date to

Registration

05-07-2017

Topics

- 1)The process of drug development which includes spectroscopy, chromatography, electro-chemical techniques electrophoretic, flow injection analysis and hyphenated techniques.
- 2)It includes validated documents in the form of accuracy, precision, specificity, limit of detection, linearity and range in considered.

PROGRAMME REPORT

Name Of the Programme: A one Week Faculty Development Programme on recent trends in method development and validation in drug development in analytical chemistry.

Date: 10-07-17 to 15-07-17

Details Of the Resource Person:

- **Name:** Dr.K. Ashok Babu
- **Designation:** Associate. Professor
- **Organization:** Dr. Samuel George institute of pharmaceutical sciences
- **Email Id:** sgipsashok@gmail.com
- **Contact number:** 8096673777

Objective: Sri Venkateswara College of Pharmacy had successfully Organized A one Week Faculty Development Program on Recent trends in method development and validation in drug development in analytical chemistry. The main Objective of the Program is to provide the development of analytical methods in drug development which helps in understanding the critical process parameters and to reduce their effects on precision and accuracy. The process of drug development requires a suitable technique which helps the scientist to analyse the drug molecule in an accurate, precise, and easiest way.

Topics Covered:

1. The process of drug development which includes spectroscopy, chromatography, electro-chemical techniques, electrophoretic, flow injection analysis and hyphenated techniques.
2. It includes validated document in the form of accuracy, precision, specificity, limit of detection, linearity, and range is considered.

Outcome of the programme: Open feedback was collected from the faculty member and they convey that the program was extremely helpful for covering the topics related to information which is useful to develop new process, which helps the person to utilize the potential of these techniques and to overcome the error in method development technique to defeat the errors in analytical techniques.

About College

Sri Venkateswara College of pharmacy was established in 2004 by Vikas Educational Society, Etcherla, Srikakulam district. The objective of the college is to impart quality education to the students of rural areas. The college have the student community in their academic endeavour and extra-curricular activities. The Placement cell is active, opening the frontier of job opportunities. This college is committed to pursue excellence in all its disciplines and providing training to develop professional responsibility, Social sensitivity and cultural awareness. It also directs students through the path of truth and integrity. Our college is surrounded by the beauty of nature. The college offers . B.Pharmacy, M.Pharmacy, (Pharmaceutical Analysis & Quality Assurance, Pharmaceutical Technology, Pharmacology) and Doctor of Pharmacy courses.

Objectives of Programme

- 1)Recent technology innovations in the pharmaceutical industry include blockchain and cloud technologies, artificial intelligence, and machine learning.
- 2)Precision medicine is an approach that integrates clinical and molecular information to understand the biological basis of disease.
- 3)Targeted therapies are tailored to the genetic makeup of individual patients so genomic testing is required to ascertain the most effective therapy before it is administered.

- **Contact number:** 98666024211

Objective: Sri Venkateswara college of pharmacy had successfully organized A one week faculty development programme on latest innovations and learnings in pharmaceutical sector. The main objective of the programme is to know about four major parts of the corporate management like Regulatory affairs, pricing and market access, medical affairs.

Topics Covered:

- 1) The pharma corporate includes global politics and health care policies.
- 2) Adoption of new bio engineering and hi-tech technologies for drug development.
- 3) Needs of the market, the customer and ultimately-the needs of patients.

Outcome of the programme: Open feedback was collected from the faculty members and they convey that that the programme was extremely helpful for covering the topics related to create value to society by making it possible to generate improvements in patient health (net of treatment risks) that were previously unattainable.
